

HABILA JOEL | Front-End Developer & Computer Technician

Location: Ogudu-Ojota, Lagos State.

Telephone: 09124352139, 09159386520

Email: joelhbila1000@gmail.com

PROFESSIONAL PROFILE

Creative and detail-oriented Front-End Developer, UI Designer and a System Technician with a passion for crafting intuitive, responsive digital experiences that deliver real impact. I blend code and creativity to build interfaces users love.

With a BSc in Computer Science and a strong grasp of front-end technologies, I create responsive, accessible, and visually compelling web applications using HTML, CSS, JavaScript, and React. I pair technical proficiency with sharp UI/UX design skills, leveraging tools like Figma, and Photoshop to craft intuitive user journeys. From wireframes to fully deployed interfaces, I bring clean design and clean code together to elevate brand presence, improve usability, and support business goals. Also in context of technicality, with the help of simplified processes I am able to fix, troubleshoot, repair and respond to systems software and hardware issues.

PROGRAMMING SKILLS/TECHNICAL SKILLS / RESEARCH SKILLS

- **REACT JS**
- **JAVA**
- **PHP/PYTHON(INTERMEDIATE)**

Among all these I have Technical skills such as:

- **IT Support Specialist**
- **Technical Support Engineer**
- **Systems Technician.**
- **Network Technician**

RESEARCH SKILLS

- Problem-Solving, experience in troubleshooting technical issues and developing solutions.
- Research Collaboration and Technical Communications, ability to work effectively in a research environment and communicate findings.
- Project Management, ability to plan, execute and manage research projects effectively.

- Self-learning and Adaptability, eagerness to learn skills and adapt to evolving research trends and technologies.
